

DAYCO® PREMIUM HOSES

MEETING THE NEEDS OF THE TRUCK MARKET WITH OE QUALITY

Dayco offers a full line of premium branded hoses for heavy-duty and medium-duty applications. Engineered with high-quality materials and EPDM compounds, they are designed for high strength performance, protection against abrasion and resistance to the elements.

Dayco's line includes simple and branched hoses for radiators, heaters, exhaust vents, fuel systems and more to ensure the best connection and performance.

FEATURES:

- Designed with spiral reinforcement for high burst strength and excellent resistance to heat and other harsh elements
- Meet OE specifications as well as all relevant SAE standards
- Specifically engineered with superior materials to handle the highly corrosive and high-pressure environment that comes with the transfer of engine fluids
- Several applications designed with knitted reinforcement and a protective sleeve to combat the effects of high temperatures

BENEFITS:

- Extensive molded radiator hose coverage for millions of trucks on the road including Freightliner, Caterpillar, Peterbilt, Volvo, John Deer, Kenworth, Mack and more
- Several new curved radiator and molded heater hose applications for popular medium-duty trucks like Ford Super Duty and Econoline, Ram trucks and Chevrolet Kodiak models
- Hundreds of applications that feature the exact same fitment with no cutting or adjustments needed, offering the aftermarket a much-needed alternative to expensive OE hoses for many newer vehicles
