DAYCO POWER® BELT LINE

With 250+ specially engineered part numbers for snowmobiles, ATVs, SXS, farm utility vehicles and golf carts, Dayco POWER® gives riders exactly what they need for optimal engine performance.

For distributors, it means **one line with extensive opportunities, fewer compromises and a premium belt option for virtually every riding style and application.**

Extensive coverage — Belts for basic, stock engines to high-horsepower, turbo-rated machines

Performance you can trust — Engineered for demanding riding conditions

Built for longer belt life — Superior strength and dimensional stability help maximize durability

Application-specific technology — Proprietary rubber compounds engineered by engine size, modifications and riding style

Consumer-Best Warranty Support

The Dayco POWER® CVT belt warranty provides a simple, hassle-free claims process for consumers—**with no action required from the distributor or powersports dealer.**

If a belt fails for any reason within **one year of purchase**, consumers contact Dayco directly at PartsSupport@Dayco.com and provide:

- A copy of the purchase receipt
- A photo of the belt
- Vehicle year, make and model

Upon approval, Dayco will send a free replacement belt, helping you deliver added value without adding warranty administration to your business.
